1. All individuals reviewing this application are required under 35 USC 181 to sign and date this form regardless of whether they are making a secrecy order recommendation.

- 2. The attached copy of the application, any copies made therefrom and this form must be returned to the PTO once a recommendation not to impose secrecy has been made or a secrecy order has been rescinded.**

Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a secrecy order.

The USPTO publishes patent applications at least monthly from the date a claim of priority is made. The USPTO will delay the publication of a claim if a third party can establish no response date by which the USPTO will need to publish the claim more than 6 months from the filing date or 90 days from the date referred to in paragraph 1. If a claimant or applicant does not file a publication of a claim at least 6 months from the filing date or 90 days from the above "Date Is Fixed", it shall have a later date as a response time provided to the USPTO regarding the process recommendation as to the submission of a revised request.
